# THE 1PASSWORD EMERGENCY KIT: VERSION 3.0

Name \_\_\_\_\_ Date (updated) \_\_\_\_\_

*This document contains all of the pertinent information you will need to access my 1Password databases on all of the below indicated platforms. 1Password allows me to keep all of my online logins, passwords and other information constantly updated and all in one place for fast, secure retrieval.*

---

My Master Password for 1Password is: \_\_\_\_\_

Computer / Device	Login	Password	1Password Y / N

iPhone or Android Pin code:	
iPhone	
Android	

1Password is not installed on the following devices I own:	
1	
2	
3	

## THE 1PASSWORD EMERGENCY KIT: VERSION 3.0

My 1Password database is stored in =		
Location	Login	Password
Dropbox		
iCloud		

Any items stored in 1Password are checked off below. 1Password names these categories similarly, meaning you can cross-reference them by simply opening the app and entering either the Master Password alone (Mac/PC/iPad) or the 4 digit password plus Master Password (iPhone/Android) if I have enabled the 4-digit password on those devices. (Mark with an "X" where applicable)

Location	Y/N	Location	Y/N
Website Login		Secure Notes	
Credit Cards		Identities (Personal, Professional )	
iTunes / Apple ID		Software Licenses	
Drivers License		Passport	
Social Security #'s		Bank Account	

---

## THE 1PASSWORD EMERGENCY KIT: VERSION 3.0

Listed below are the names/master passwords of any additional password vaults I've created within 1Password (where applicable), as well as who I've shared them with and for what purpose.

Vaults	Password	Who shared with	Purpose

*(Any additional vault information is available on the reverse side of this sheet.)*

I have stored all of my online information in 1Password to keep it safe, secure, and easily accessible in case of emergency. Because I've been using it, every single password in its database will be current. I hope that what I — and 1Password — have done here has helped you out...even just a little.

(Note: For information on how to use 1Password, go to the link below and choose the version for the platform(s) owned.

<https://agilebits.com/onepassword>

Location of other critical data / back-ups			
Device / media	location	Password	Purpose
