

## THE 1PASSWORD EMERGENCY KIT

Name: \_\_\_\_\_ Date updated: \_\_\_\_\_

1Password Platforms Owned: Mac: \_\_\_ Windows: \_\_\_ iPhone: \_\_\_ iPad: \_\_\_ Android: \_\_\_

This document contains all of the pertinent information you will need to access my 1Password databases on all of the above indicated platforms. 1Password allows me to keep all of my online logins, passwords and other information constantly updated and all in one place for fast, secure retrieval.

My Master Password for 1Password (Mac/PC/iPad) is:

\_\_\_\_\_

My 4 digit password for 1Password on my iPhone is:

\_\_\_\_\_

My 4 digit password for 1Password on my Android is:

\_\_\_\_\_

Where my 1Password database file is located: \_\_\_\_\_

My 1Password database is stored in my Dropbox folder (<http://dropbox.com>). My credentials for Dropbox are listed below.

The email I use for Dropbox is: \_\_\_\_\_

My Dropbox password is: \_\_\_\_\_

I have stored the following types of information in 1Password, which is accessible by entering either the Master Password alone (Mac/PC/iPad) or the 4 digit password plus Master Password (iPhone/Android) if I have enabled the 4-digit password on those devices.

Website Login and Password Information: Y / N

Accounts (like iTunes): Y/ N

Secure Notes: Y / N

Wallet (includes credit card, bank account and personal information): Y/ N

Software Licenses: Y / N

**Note:** For information on how to use 1Password, go to <http://help.agilebits.com> and choose the link(s) for the version(s) I own.
